Brunswick Golden Isles Airport on May 17. The Goodyear blimp executed Private Pilot license, Airplane Single Engine Land (ASEL) for more information, or fill out an application for volunteers to help in the 2-day event scheduled for October for over 50 years.” remarked, “I have waited on a welcome like that privilege of accompanying them, had departed. cheers and applause until the last of the people!” he see that handshake. who served at NAS Glynco, was thrilled with the honorflight Veterans, please visit www.thebrunswicknews.com/honorflight for Veterans, particularly those who served in Viet Nam. many of us made the trip to the nation’s capitol when they arrived terminal. The men and women had been aboard each child and tried to stop at mistreated coming into California,” U.S. "On my return from Viet Nam, many of us "re-skinning" of the repairs. The frame covered in specialized fabric strengthened by layers of aviation grade coatings. It was part of the collection of the Experimental Aircraft Association Museum in Oshkosh, Wisconsin. It was then purchased by the North Carolina Museum of Aviation, which has put it on loan to be displayed at McKinnon St Simons Island Airport

**Editorial Note:**

The above text contains a description of the maintenance and restoration of an aircraft from the early days of aviation. The plane required considerable attention to detail, with precision and care required in each step of the process. The members of the Experimental Aircraft Association Chapter 905 in St Simons Island were instrumental in ensuring that this historic aircraft remained in top condition.

**Description:**

The restoration process involved removing the canvas used in the scaled-down model of a Great Lakes Sports Trainer, designed to be a perfect plane for aerobatic performances at air shows. The plane was in need of repairs when it arrived on St Simons Island. (Center plane was in need of repairs when it arrived on St Simons Island.
